

Inner-Duct - The term "inner-duct" refers to a pathway created by subdividing a duct into smaller channels.

Joint User - The term "joint user" refers to a utility which has entered into an agreement with BellSouth providing reciprocal rights of attachment of facilities owned by each party to the poles, ducts, conduits and rights-of-way owned by the other party.

Licensee - The term "licensee" refers to a person or entity which has entered or may enter into an agreement or arrangement with BellSouth permitting such person or entity to place its facilities in BellSouth's conduit system or attach its facilities to BellSouth's poles or anchors.

Lashing - The term "lashing" refers to the attachment of a licensee's sheath or inner-duct to a supporting strand.

License - The term "license" refers to any license issued pursuant to BellSouth's Agreement and may, if the context requires, refer to conduit occupancy or pole attachment licenses issued by BellSouth prior to the date of the Agreement.

Make-Ready Work - The term "make-ready work" refers to all work to be performed to prepare BellSouth's conduit systems, poles or anchors and related facilities for the requested occupancy or attachment of CLEC's facilities. "Make-Ready work" includes, but is not limited to, clearing obstructions (e.g., by "rodding" ducts to ensure clear passage), the rearrangement, transfer, replacement, and removal of existing facilities on a pole or in a conduit system where such work is required solely to accommodate CLEC's facilities and not to meet BellSouth's business needs or convenience. "Make-Ready work" may require "dig-ups" of existing facilities and may include the repair, enlargement or modification of BellSouth's facilities or the performance of other work required to make a pole, anchor, conduit or duct usable for the initial placement of CLEC's facilities.

Manhole - The term "manhole" refers to an enclosure, usually below ground level and entered through a hole on the surface covered with a cast iron or concrete manhole cover, which personnel may enter and use for the purpose of installing, operating, and maintaining facilities in a conduit.

Occupancy - The term "occupancy" shall refer to the physical presence of telecommunication facilities in a duct, on a pole, or within a Right of Way.

Pole - The term "pole" refers to both utility poles and anchors but only to those utility poles and anchors owned or controlled by BellSouth, and does not include utility poles or anchors with respect to which BellSouth has no legal authority to permit attachments by other persons or entities.

Preliminary Survey - The term "prelicense survey" refers to all work and activities performed to determine whether there is adequate capacity on a pole or in a conduit or conduit system (including manholes and handholes) to accommodate CLEC's facilities and to determine

what make-ready work, if any, is required to prepare the pole, conduit or conduit system to accommodate CLEC's facilities.

Right of Way (ROW) - The term "right of way" refers to the right to use the land or other property of another party to place poles, conduits, cables, other structures and equipment, or to provide passage to access such structures and equipment. A Right of Way may run under, on, or above public or private property (including air space above public or private property) and may include the right to use discrete space in buildings, building complexes, or other locations.

Sheath - The term "sheath" refers to a single outer covering containing communications wires, fibers, or other communications media.

Spare Capacity - The term "spare capacity" refers to any pole attachment space, conduit, duct or inner-duct not currently assigned or subject to a pending application for attachment/occupancy. Spare capacity does not include an inner-duct (not to exceed one inner-duct per party) reserved by BellSouth, CLEC, or a third party for maintenance, repair, or emergency restoration.

Service Requirements and Restrictions

The following items provide general requirements and restrictions regarding access to and placement of facilities in or on poles, conduit, ducts and rights-of-way.

- Facilities shall be placed, constructed, maintained, repaired, and removed in accordance with current editions of the following publications:
 - The Blue Book Manual of Construction Procedures, Special Report SR-TAP-001421, published by Bell Communications Research, Inc. ("Bellcore"), and sometimes referred to as the "Blue Book";
 - The National Electrical Code (NEC); and
 - The National Electric Safety Code (NESC)
- CLEC's facilities placed in BellSouth's conduit system must meet the following physical design specifications:
 - Cables bound or wrapped with cloth or having any kind of fibrous coverings or impregnated with an adhesive material will not be permitted in BellSouth's conduit or ducts.
 - When a CLEC's cable facility utilizes an alternative duct or route that is shared in the same trench by any current-carrying facility of a power utility, dielectric cable is required to protect the integrity of BellSouth's conduit system and overall safety of BellSouth's personnel and other personnel working in BellSouth's conduit system.
 - CLEC's facilities placed in BellSouth's conduit system must not use the earth as the sole conductor for any part of CLEC's circuits. Facilities carrying more than

50 volts AC (rms) to ground or 135 volts DC to ground shall be enclosed in an effectively grounded sheath or shield.

- Neither party shall circumvent the other party's corrosion mitigation measures. Each party's new facilities shall be compatible with the other party's facilities so as not to damage any facilities of the other party by corrosion or other chemical reaction.
- The CLEC is responsible for building permits or certificates from governmental authorities necessary to construct, operate, maintain and remove facilities on public or private property.
- New construction splices in CLEC's fiber optic and twisted pair cables must be located in manholes, pull boxes or handholes.
- CLEC's will be permitted to connect their conduit or duct only at the point of a BellSouth manhole. Attachment by entering or breaking into conduit between manholes will not be permitted. CLEC's must obtain written approval from BellSouth prior to modifications or core boring to BellSouth manhole(s).
- BellSouth will remove any retired cable from conduit systems to allow for the efficient use of conduit space within a reasonable period of time at the CLEC's expense. BellSouth permits CLEC's to arrange for such work directly with a BellSouth certified contractor provided authorization for such work has been obtained in advance from BellSouth.
- CLEC will establish procedures and practices to ensure compliance with Occupational Safety and Health Act (OSHA) and with Environmental Laws and Regulations.
- Facilities placed in BellSouth's conduit system must not be in violation of FCC regulations and must serve a lawful purpose.
- The execution of BellSouth's Pole, Conduit, and Right of Way Agreement with a CLEC shall not be construed as limiting or interfering with BellSouth's rights to manage its own facilities or with the CLEC's rights to manage its own facilities

Rates

The matrix below indicates the 1997 rates for attachment to or occupancy of BellSouth's poles, anchors (Kentucky only) and conduit. Rates are billed per year and will be adjusted annually. Attachments or occupancy for time periods less than one year will be pro-rated on the rendered bill.

State	Poles (ea. / yr.)	Anchors (ea. / yr.)	Conduit	
				(\$ / ft. / yr.)
Alabama	\$ 3.34	Not permitted		\$ 0.37
Kentucky				0.70
2-user	9.45	\$ 12.90		
3-user	5.35	8.60		
Louisiana	6.90	Not permitted	Dense	11.00
			Non-dense	5.29
Mississippi	4.94	Not permitted		2.50
Tennessee	4.57	Not permitted		6.00
Florida	4.10	Not permitted		.75
			Miami River crossing @ SE 3rd Ave	17.13
Georgia	4.20	Not permitted		.56
North Carolina	3.99	Not permitted		.52
South Carolina	3.29	Not permitted		.47

i) For the purpose of determining the Duct feet chargeable, the Duct considered occupied shall be measured from the center to center of adjacent Manhole(s), or from the center of a Manhole to the end of a Duct not terminated in a Manhole.

ii) The above rates are not applicable for crossings of any navigable waterway. Rates for navigable waterway crossings will be calculated on an individual case basis.

Installation Intervals

Standard installation intervals are currently under development. Until these intervals are generally available to all requesting parties, intervals will be negotiated on a per request basis. BellSouth will use its best efforts to meet customer requested dates.

Service Inquiry & Ordering Guidelines

Prior to applying for access to BellSouth poles, conduit, ducts or rights of way, a CLEC must negotiate an agreement specifying the terms and conditions for such access. Upon execution

of the agreement, the CLEC must submit a service inquiry to determine space availability or submit the appropriate Application for Occupancy License for each proposed facility route.

Service Inquiry requests must identify with reasonable specificity the geographic area, the types and quantities of desired facilities and the requested in-service date. Upon receipt of the inquiry, BellSouth will provide information regarding the types, quantity, location and availability of BellSouth poles, conduit and Right of Way for the geographic area specified in the inquiry. The CLEC may elect to be present at any field based survey of facilities identified in the inquiry request. CLEC employees may inspect and copy engineering records or drawings which pertain to facilities within the geographic area specified to BellSouth in the written request.

Licenses

To apply for a license, the CLEC must submit to BellSouth two signed copies of an Application and Conduit Occupancy License form or Application and Pole Attachment License form. BellSouth will process license applications in the order in which they are received; provided, however, that when CLEC has multiple applications on file with BellSouth, CLEC may designate its desired priority of completion of prelicense surveys and make-ready work with respect to all such applications.

Each application for a license must specify the proposed route of CLEC's facilities and identify the conduits and ducts or poles and pole facilities along the proposed route in which CLEC desires to place or attach its facilities, and describe the physical size, weight and jacket material of the cable which CLEC desires to place in each conduit or duct or the number and type of cables, apparatus enclosures and other facilities which CLEC desires to attach to each pole. The Applications must also be accompanied by an estimated construction schedule and construction details, requirements for which will be identified in the agreement between the parties, and an indication of whether CLEC will, at its option, perform its own make-ready work.

BELLSOUTH BLANKET AGENCY AGREEMENT LETTER for LOCAL SERVICE PROVIDERS

I am an official of (Company) _____ and am authorized to commit my company to the conditions stated herein:

1. (Company) _____ will not submit any requests or inquiries for Resale or Facility Based local service provisioning under Blanket Agency Agreement procedures to BellSouth for which it does not have proper authorization from the End User upon whose behalf service is offered.

2. (Company) _____ has entered into an agreement to provide local service for the End User.

3. The agreement between (Company) _____ and the End User provides that the (Company) _____ is solely responsible for representing the end user in all requests relating to local service. The agreement between (Company) _____ and the End User holds the End User responsible to (Company) _____ for all charges incurred on the End User's behalf for local service. However, (Company) _____ is responsible to BellSouth for all charges that may be incurred in connection with service requests for End Users regardless of whether the End User meets payment responsibilities to (Company) _____.

4. The End User will deal directly with (Company) _____ on all inquiries concerning their Local Service. This may include, but is not limited to, billing, repair, directory listings, and number portability.

5. BellSouth is authorized to release all information regarding the End User's local service to (Company) _____.

6. In the event that the End User challenges action taken by BellSouth as a result of the above mentioned service requests, (Company) _____ will provide evidence of proper End User authorization and indemnify and hold harmless BellSouth and its affiliates for any damages or losses, including but not limited to unauthorized change charges, resulting from (Company) _____ preparation and submission of service requests for which it did not have proper End User authorization.

**BELLSOUTH BLANKET AGENCY AGREEMENT LETTER FOR LOCAL
SERVICE PROVIDERS**

Page 2 of 2

7. In the event that the End User challenges billing which resulted from local service requests submitted to BellSouth by (Company) _____ under this Blanket Agency Agreement, then (Company) _____ will indemnify and hold harmless BellSouth and it's affiliates for any damages, losses, costs and attorney's fees, if any, arising from BellSouth provisioning and maintenance of the End User's local service due to errors in the ordering of said service by (Company) _____.

8. In the event that the End User disputes actions taken by BellSouth as a result of a submission by (Company) _____ of a service request for disconnection or termination of a previously submitted local service request for which it did not have proper End User authorization, then (Company) _____ will indemnify and hold harmless BellSouth and it's affiliates for any damages, losses, costs and attorney's fees, if any, resulting from said dispute.

9. This Agreement shall continue in effect unless canceled by prior written notice by BellSouth or (Company) _____ thirty (30) days prior to the effective date of cancellation. Cancellation shall not release or limit any matters occurring prior to the cancellation of this Blanket Agency Agreement.

PRE-ORDERING FUNCTIONS

Pre-ordering information provides the CLEC certain information that may be needed when utilizing resold local exchange services. This information includes:

- Address Validation
- Service and Feature Availability
- Telephone Number Assignment
- Due Date Offerings
- Customer Service Records

The information and functions available through the pre-ordering interfaces are important to help a CLEC ensure the accuracy and quality of their LSRs. The validation will also help prevent unnecessary delays and fallout.

To order the Pre-Ordering Interfaces, contact your account representative.

Address Validation

This function confirms that the end user has provided a valid address.

Service and Feature Availability

This function provides the service and feature availability by central office. The CLEC can also verify that a feature requested by an end user is available in that switch.

Telephone Number Assignment

This function provides the capability to reserve telephone numbers. Telephone number reservation provides the CLEC the ability to request a pre-determined number of telephone numbers within a CLLI (Common Language Location Identification) as well as individual special number requests.

Due Date Offerings

This function provides information helpful in negotiating customer commitments for non-design service requests. It is available with the Local Exchange Navigation System (LENS) pre-ordering interface.

Customer Service Records

This function provides the CLEC account information for their customer as well as any BellSouth customer account. The CLEC cannot access any other CLEC's account or customer information.

The CLEC can obtain an end user's customer record using any one of the three ways listed below:

Submitting an LOA Prior to a Firm Order

Prior to submitting a firm order request for local service, the CLEC may provide BellSouth with an end user Letter of Authorization (LOA) request for records. A sample format of this request is provided at the end of this section.

Provided with FOC on Switch As Is Requests

A copy of the customer's record is provided when the LCSC processes the initial order to switch a BellSouth end user's account to a CLEC without changes. The information is provided as a confirmation of the services that will be billed to the CLEC. This information will be provided via facsimile.

On-line Interface

Account information for customers with 25 lines or less can be obtained on-line. Larger accounts can be provided electronically via a batch process.

TELEPHONE NUMBER RESERVATIONS

Reserving Telephone Numbers for End User Assignment

As an alternative to establishing an electronic pre-ordering arrangement for telephone number assignment (see Pre-Ordering Interfaces), CLECs may choose to reserve a pool of numbers for Resale or for Unbundled Ports, which will allow the "pre-assignment" of numbers for end users.

To reserve a pool of numbers, the CLECs submit the form Telephone Number Reservation Request, exhibited at the end of this section. The form is designed to reserve blocks of telephone numbers associated with specific CLLI (Common Language Location Identifier) codes. It can only be used to reserve POTS (Plain Old Telephone Service) numbers. Special application numbers such as DID number scopes, series hunting, TERs, HMLs, etc., must be assigned by the LCSC on a case-by-case basis to meet needs for specific Local Service Request activity.

Prints of the reserved telephone numbers (example included in this section) will be returned to the CLEC by fax unless a disk is requested on the request submitted to LCSC.

A maximum of 100 telephone numbers per CLLI (Common Language Location Identifier) may be reserved for a maximum of three months. It is up to the CLEC to manage its pool of numbers so as to prevent duplicate number assignments and to monitor the reserved numbers for exhaustion. Additional numbers can be requested as required.

The CLEC may assign a reserved telephone number as appropriate during negotiations with end users. However, **the CLEC must advise the end user that the number cannot be guaranteed until service is installed.**

Note: Reserved numbers are not permanently assigned to an CLEC. As numbers are freed up by end user activity, they will be returned to the general purpose pool which is controlled by BellSouth.

Special Considerations

Some end user locations are served by multiple switches which may support different services. It is the CLEC's responsibility to take this into consideration when assigning a telephone number.

At times, it is necessary for BellSouth to introduce a 'switch freeze' for switch replacement activity. When this happens, number reservation in BellSouth systems is disallowed.

The following definitions identify fields and entry requirements on the request form. An exhibit of the form is provided at the end of this section.

Field Definitions for the Telephone Number Reservation Request

1. Date

The date the CLEC submits the Number Reservation Request to the LCSC.

2. Page 1 of __

Enter the appropriate page #s at the top of each Telephone Number Reservation Request

A. - Competitive Local Exchange Company

3. Co/OCN

The Company Name and 'Operating Company Number' for the CLEC submitting the Number Reservations Request.

4. FAX #

The CLEC's fax number for receipt of the reserved numbers.

5. Requested By

The name of the person completing the Number Reservations Request who is responsible for coordination of the request and any related questions.

6. Tel #

The telephone number of the person submitting the Number Reservation Request.

7. Remarks

Available for the issuer to provide any additional information that would assist in processing the request for number reservation.

8. ☐ Disk Requested?

Check this box if you desire to have the reserved telephone numbers file(s) mailed on a 3 1/2 inch floppy disk. The disks are in Microsoft Word v.6.

9. If Yes, Mailing Address

The disk will be mailed to the address provided here to the attention of the person submitting the telephone number reservation request

B. - Reservation Request Details**10. CLLI**

11 Alpha/Numeric Character Common Language Location Identifier code.

11. Number to Reserve

A maximum of 100 telephone numbers can be reserved at a time.

12. Reserve Until Date

Telephone numbers can be reserved for up to three (3) months.

13. Confirmation Number:

This field will be completed by LCSC. The Confirmation Number will be found on the printout with numbers reserved for the designated CLLI.

14. Number Reserved:

This field will be completed by LCSC, if required. It will only be populated if LCSC was unable to completely fill your request.

15. Reserve Until Date

This field will be completed by LCSC, if required. It will only be populated if LCSC was unable to reserve the numbers for the period of time requested.

C. - Reservations Provided By

16. BellSouth Service Representative

The name of the BellSouth Local Carrier Service Center (LCSC) employee who is responsible for providing the CLLI code telephone number reservations.

17. Telephone Number

The telephone number of the BellSouth Service Representative.

18. Remarks

Available for the BellSouth Service Representative to provide any additional information required.
